

District 3 — Anita Herron

**What prompted you to run for the Commission now?**

I am running for County Commissioner because I am a servant and transformational leader that would like to serve the citizens of our county at a greater level. As I meet with residents across our county, I hear their concerns about our growing population and its impact on things like traffic, housing, and even managing waste and water consumption. And I am committed and ready to echo these concerns as a Commissioner while providing efficient and cost-effective public safety and community services to our residents and community stakeholders. I believe in public service and that everyone deserves a “seat at the table” in creating a more equitable, sustainable, and environmentally friendly future for all our residents of Rutherford County.

**If elected, what goals do you have for the next four years?**

The quality of life for every resident of Rutherford County is important to me. My four-year focus will be on improving and strengthening Rutherford County in areas of: Economic and Residential Growth; Solid Management and Waste Disposal; Public and Neighborhood Safety by enhancing and implementing correlated and preventive strategies for the sole purpose in addressing the health, welfare, recreational, and social/emotional needs of Rutherford County as a whole. Yet, these coordinated efforts will impact the potential future against crime, poverty, and disease for every resident to experience Rutherford County as the best place to Live, Work, and Play.

**What Standing Committees are you interested in serving on and why?**

The Standing Committees that I am most interested in serving on when elected are: Budget, Finance, and Investment Committee; Health and Education Committee; and the Community Care Board. The experience while serving on these committees would allow me to serve in a capacity holistically and not from a silo approach to our residents of Rutherford County.
