

District 9 — Mark Linville

1. I am running for County Commissioner now because I believe it is time to get some of our long standing issues addressed. We are facing our second property tax increase in 3 years.

Yet we are one of the fastest growing counties in the country. I am not opposed to growth however I believe it should be managed in an equitable way for all our citizens. We still have a landfill problem looming huge on the horizon that is still being studied after the county commission voted to not expand the landfill.

It is time for action. I am ready, willing, and able to take action. That is why I am running.
2. My goals if elected for the next four years are to put the landfill issue to bed. To set out a plan for growth for the next 25 years that will be equitable for all our citizens. To make sure our schools are preparing our children and grandchildren for a successful future. To support our school staff so that they have the resources they need to be successful as well. I would also want to make our taxes equitable for our property owners and businesses.
3. The committees that I would like to serve on would be the planning committee and the finance committee. Being on these committees would best help me accomplish my goals as a commissioner.
